

## Timeline: Yaniv's Ailments - Real and Concocted

---

**KF** = The Kiwi Farms    **MM** = MeowMix    **CoR** = Certificate of Readiness (telemed summaries)

Almost all of this information comes from Yaniv (now styling himself as Jessica Simpson), directly or indirectly, and so is subject to his dishonesty, delusion, and ignorance, all of which are considerable. It is also subject to misinterpretation and ignorance on our part. We continue to improve the quality of the information whenever possible.

[CoR](#) entries go to a PDF of the certificate of readiness Yaniv filed in a lawsuit he brought that provided summaries from online consultations he had with Telus Babylon doctors from March through September 2019. "Chunk" entries go to chat logs of the extended discussions Yaniv had with a catfish, "Sara," in 2020.

### 1987

- 6/12 - born (KF [OP](#), [FAQ](#), [court documents](#) showing DOB)

### 1993

- 6/12 - turned 6, which he claims was when a specialist diagnosed him "as a girl" ([notes](#) on BCHRT hearing testimony, 7/17/19); a different transcript says he was diagnosed with GID at that age

### 1997

- tells Sara on 7/16/20 that his father had brain surgery when Jonathan was 10, meaning 1997 (MM.org, [Chunk 4](#), 9/11/20); he's elsewhere said his father died of lung cancer (2013) and suffered from sleep apnea

### 2000

- 6/12 - turned 13, which is the age when he says he began having periods, though in same exchange says he's M2F ([KF post](#), see spoiler); mother says under oath that he began having periods at 13 or 14 and has had abdominal cramping all his life ([KF post](#), 7/16/19); she repeats that testimony the following day ([notes](#), 7/17/19); at other times, he stated that when he was 13, he began having clear discharge from his penis (see the 2008 entries below)

## 2005

- his first year at Kwantlen Polytechnic, which is when he says two boys barged into a washroom stall and caught him changing his pad and groped his genitals; he reported it to security, but there was no evidence and nothing was done (p. 169, [MM transcript](#); KF [thread](#), 11/26/19; MeowMix [archive](#))

## 2006

- 6/12 - turned 21
- had surgery on his sinuses ([CoR](#), 3/20/19)

## 2008

- 7/25 - in [chatlogs](#) sent to Null in July 2019, Yaniv discusses his fixation on using menstrual products and pretending to have menstrual symptoms, while admitting that he does not menstruate and has a penis. He does not like menstrual products being described as feminine hygiene products because other people use them. Also:
  - wants to wear menstrual pads on his “off-period days” (KF, [chatlog](#)) because of clear goeey discharge from his penis that becomes clumpy and then crusty (KF, [chatlog](#) plus preceding slides); it’s always clear, never bloody (KF, [chatlog](#)); spermatorrhoea discussed, a malady not recognized currently by western medicine; began when he was 13 (circa 2000), “its just wet dreams constantly day and night” (KF, [chatlog](#))
  - has bloody discharge from his anus because of a stomach problem (KF, [chatlog](#))
  - doesn’t know if he’s a virgin because “she said she felt it but idk if she’s lying or not” (KF, [chatlog](#)); he’d tried having her mount him in a school washroom while he was sitting on a toilet, then moved to the floor, but “it kept falling out and she kept putting it back in ... her eyes got big and then she hit her head on the wall a few times and then I stopped” (KF, [chatlog](#))
  - takes Midol (KF, [chatlog](#))
- 7/31 - [chatlogs](#) continue:
  - has girl chat buddies who “tell me when they have their periods and I tell them when I’m not well,” tries to get chat buddy to do that, too (KF, [chatlog](#))
  - wears menstrual pads and worries that people can tell, wants chat buddy to find a video of how to put on pad (KF, [chatlog](#))

## 2009

- had sex on the floor with a fat, ugly girl named Amanda, “felt like I was fucking a crater”; sounds like the encounter he described in 2008, but he says this one occurred in 2012 (pp. 101-02, [MM transcript](#), [KF thread](#), 11/26/19)

## 2013

- 1/25 - Yitzhak dies at 79 (b. 8/14/39) of lung cancer. Yaniv says a doctor failed to Dx Yitzhak’s symptoms until the cancer had reached Stage 4. He blames some of his constant fear of having cancer himself on this. (KF [thread](#), 11/17/19); “RIP dad, I love you.” (KF post [59](#), 11/9/18) Yaniv later blamed his subsequent weight gain and bad behavior on his grief over his dad’s death (example of that blaming behavior in which he also says never came out to his father: [Katie’s transcript](#)).
- 9/13 - Louise Nussac calls him out for suicide baiting Cimorelli’s young fans, which he appears to have done for more than a year (MeowMix [archive](#))

  - 9/5 - says he is sick and has “bumps all over” ([folliculitis](#), see the next black bullet item)
  - 12/2 - says he has “a life threatening allergy to seafood, “like if I eat it, I die,” and is fearing the worst after eating a “small small small bit of tuna in this salsa at costco” (but when he’s tested for allergies in 2019, they find he’s not allergic to seafood, [CoR](#), 8/28/19)
- told a 17-year-old known as “M” or “Madison” in 2014 (or 2015?) that he has “folliculitis” ([folliculitis](#), usually caused by a bacterial or fungal infection); a doctor told him to [bathe with bleach](#) (KF post [196](#), 1/17/20; MM.org, [Madison gallery](#))

- Carlee had lunch with Yaniv, his mother, and his Aunt Ilana in 2015 and reported that Miriam used hearing aids and Ilana communicated solely through sign language (MM.org [article](#), 11/27/20); Yaniv’s own hearing will deteriorate significantly over time
- 1/5 - Miriam posts that she and her sister have mitochondrial disease, which can be inherited and which if Yaniv has it could explain his wide array of medical complaints ([archived article](#), see comments below main text); in 2019, he begins being tested for mito at the Complex Chronic Diseases Program where Miriam and her sister are treated at BC Women’s Hospital ([CoR](#), 9/2, 9/4, 9/5, 9/11, 9/23/19)
